MAGAZINE FED

The lower receiver, made of special polymer, does not compromise on quality, while providing ease of transport with its lightness.

Drilled barrel made of AISI 4140 Chrome Molybdenum steel is resistant to high pressures. Internal and external chrome plating protects the barrel from all external factors.

Owing to the telescopic stock that can move back and forth 80 mm, you can adjust the trigger distance according to yourself

ODIN LA01

We approach our designs with an aesthetic understanding. We show the same precision in our mechanisms with our technical wisdom.

At the end of a lot of engineering progress we designed a high quality lever action mechanism. For efficient firepower, sturdy frame is accompanied by a mechanism which is high engineering.

World famous Turkish walnuts and high quality steel, combined with experience and giving the best satisfaction to our customers. Our experience is presented for your enjoyment through lever action rifle.
